Salesforce Architecture resources

Official Salesforce Docs

Understanding the multi-tenant Architecture

https://www.developerforce.com/media/ForcedotcomBookLibrary/Force.com_Multitenancy_WP_101508.pdf

https://developer.salesforce.com/wiki/multi_tenant_architecture

The architecture Resources page

Probably my favourite page in the Salesforce Help system. Links to trailhead's whitepapers, and much more.

https://architect.salesforce.com/

The CTA Journey doc

Here to give you an overview of how to aim for being a CTA. Some nice tips here and there

https://www.salesforce.com/content/dam/web/en_us/www/documents/datasheets/salesforce-architect-journey.pdf

Tech design Articles

How to decided for specific streaming events depending on your objective and architecture.

https://developer.salesforce.com/blogs/2018/07/which-streaming-event-do-i-use.html

External Links

The TOGAF 9 cert

Is a nice non-Salesforce way to get into architecture. Has its own studies, etc, but is focused on general systems design and architecture concerns.

https://www.opengroup.org/certifications/togaf

Useful Blogs Posts

Archladies is a nice resource for anyone looking to see how to get to CTA.

https://archladies.com/cta-review-board-mock-exam-green-roof-systems-with-matt-morris#more-1908

Record Access under the hood is a must-read for anyone wanting to design Security Concepts in Salesforce.

https://blog.bessereau.eu/autopost-salesforce-record-access-under-the-hood/
